

**Pre announcement of the 54<sup>th</sup> international conference for Anthroposophical Music Therapists**

In collaboration with the Goetheanum Medical Section

17-21 of May 2023 in Zutphen

Dear colleagues,

It is with great joy that we invite you to the 54<sup>th</sup> International Conference for Anthroposophical Music Therapy. This edition will take place from Wednesday evening the 17<sup>th</sup> of May until Saturday evening the 21<sup>st</sup> of May 2023, at Vrije School De Berkel in Zutphen, the Netherlands.

In the appendix a list can be found containing addresses of various hostels and hotels in and around the city.

The theme for this conference shall be: **Therapeutic attitude in music therapy.**

Both music and therapy can be seen as a reflection or simulation of daily life. In music therapy the first instrument therapists employ, is themselves. Therefore during this conference we will work with questions regarding the connection between the therapist as a professional, the therapist as a human, and the relationship with the client. "How does a therapist trust their intuition during a session?" "How can we work with situations that touch us on a personal level?" "Who is the therapist you aspire to be?" "How do we become more conscious of karmic aspects of the meeting between therapist and client?". These are some of the topics that might come up during our gathering.

A key element for finding answers to these questions is all the various experiences we bring with us to the conference. There shall be plenty of occasions during interactive lectures and workshops to share our stories and inspire each other through the diversity of our work.

Additionally we will take time this year to commemorate the 100<sup>th</sup> birthday of Maria Schüppel, foundress of the 'Musiktherapeutische Arbeitsstätte' in Berlin. This shall take place on Thursday evening 18<sup>th</sup> of May.

Maria Schüppel was a powerful presence with the necessary character and attitude to lay the foundation on which we stand now. Therefore we would like take a moment during which those who have known her can share stories about her work and personality, that we may remember her and take a spark of her in to our own attitudes towards our craft.

**Please note:** during the general parts of the conference the main language will be English. For the working groups there shall be a free choice of spoken language.

If someone of you would like to offer a working group to the theme of the conference, please contact us through the email address below.

We are looking forward to see you all in Zutphen!

With kind regards,

Sanne Pillipes, Jaime Filippo, Sverre Vreeman and Odulf Damen.

Tagung.conference@gmail.com

P.s.

You will receive a program and registration form in February 2023
